

Contact list

The Contact list is available from the [Contacts](#) form by clicking the button "List".

This is a classic Datagrid.

Click on the link with the contact's name to go to their record.

Its advantage is that you can do advanced searches with criteria.

Click on [Criteria] to show/hide the available Criteria. Select a filter and enter the value you are looking for. Click on [Apply] to get the results of your query. Otherwise, select [Reset Criteria] to undo the recent changes you made to the Criteria.

After applying some criteria or a Sort, you can export the results in Excel format.

To undo all changes, select [Reset].

The screenshot shows the 'Contact list' interface. At the top, there is an 'Advanced sorting' section with a dropdown menu set to 'Last Name - First Name'. Below this is a 'Criteria' section with several filters: 'Lastname', 'Firstname', 'Address', 'Phone', and 'Mobile', each with a 'Select' dropdown and an input field. There are three buttons: 'Apply criteria', 'Reset criteria', and 'Clear criteria'. Below the criteria section is a 'Tools' section with a 'Reset' button, a 'Rows per page' dropdown set to '10', an 'Export to Excel' button, and an 'Add new record' button. A 'Need help?' link is located at the bottom right of the interface.

You have the ability to navigate the pages or go directly to a page.

Clicking on the header of each column will sort the table according to this field, ascending or descending. You can also use the "Advanced sorting".

You can set the number of rows per page.
