Free text editor

The Free Text Editor is used in various parts of the MediSign application and offers the ability to insert free text in **basic formatting**.

Prioritizing **secure operation** in an internet environment, it allows input and formatting for the following:

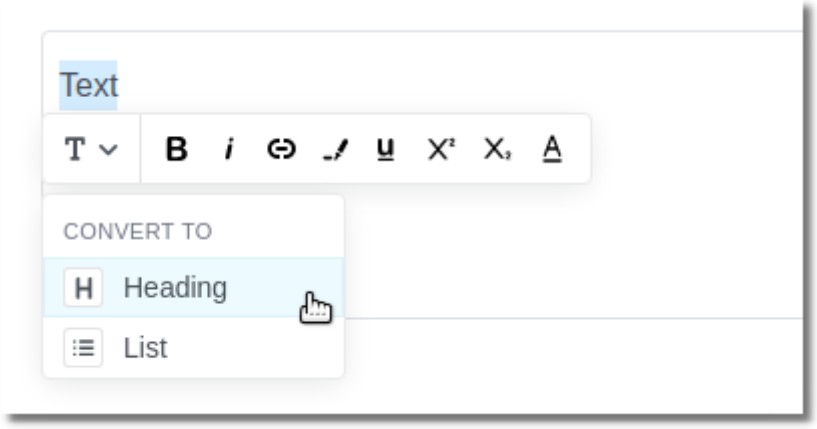

- Paragraph
- Heading
- List
- Tables

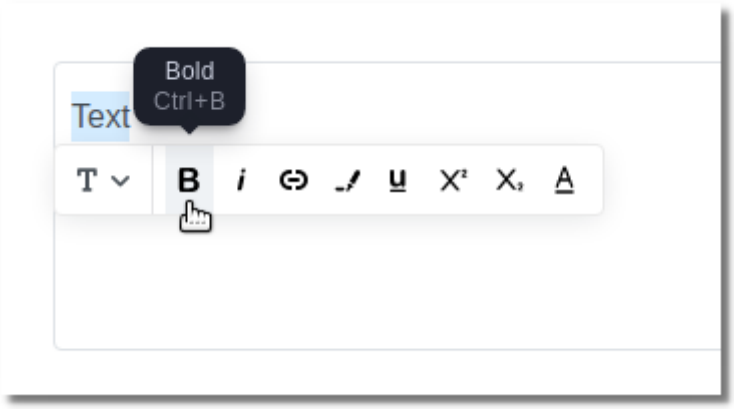

Text with basic formatting can also be imported directly from Word (or another Word Processor) with Copy and Paste.

Tools

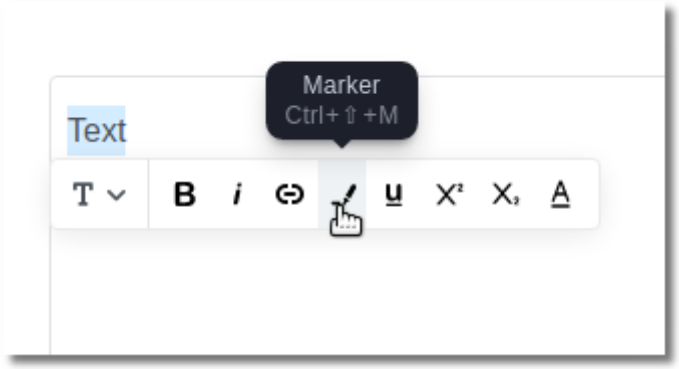

By selecting a piece of text, you have the following tools available:

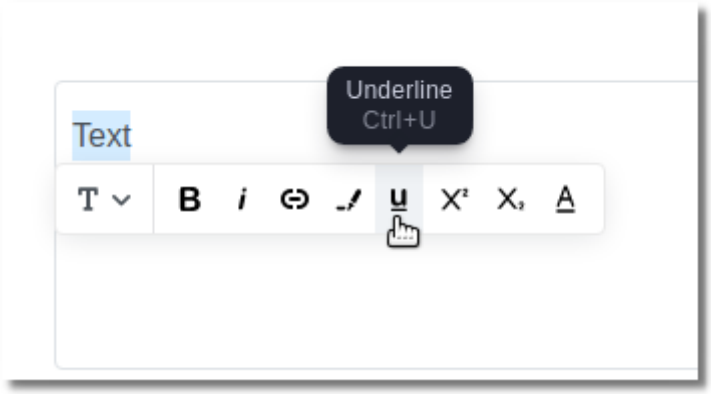

Text
CONVERT TO
Heading
List
