

Free text editor

The Free Text Editor is used in various parts of the MediSign application and offers the ability to insert free text in **basic formatting**.

Prioritizing **secure operation** in an internet environment, it allows input and formatting for the following:

- Paragraph
- Heading
- List
- Tables

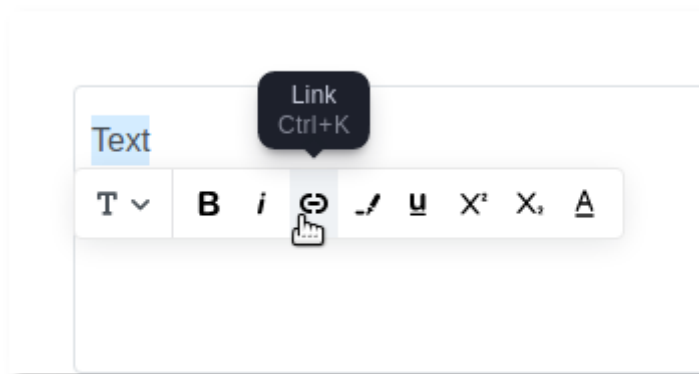

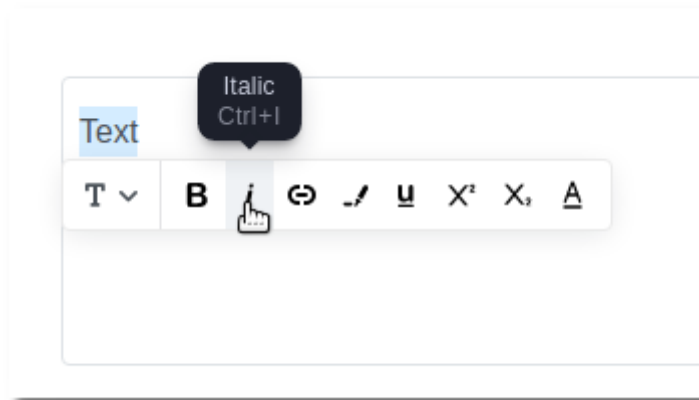

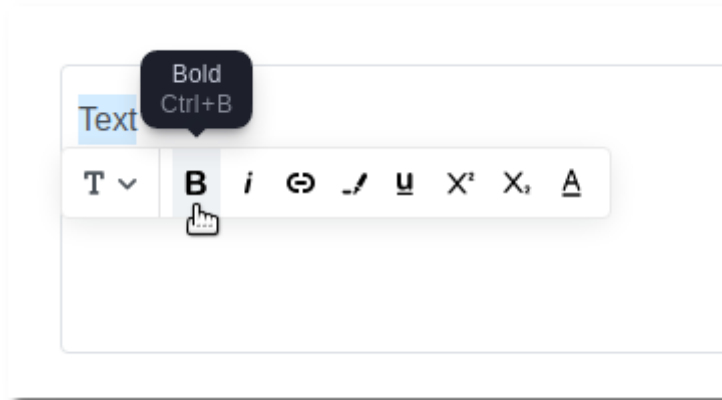

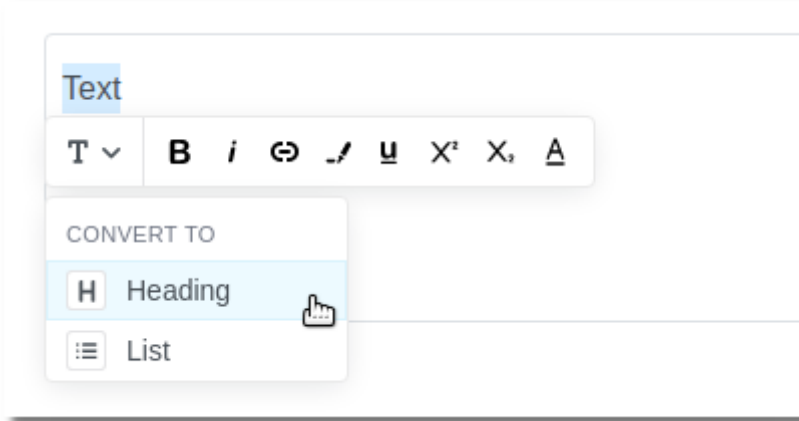

Text with basic formatting can also be imported directly from Word (or another Word Processor) with Copy and Paste.

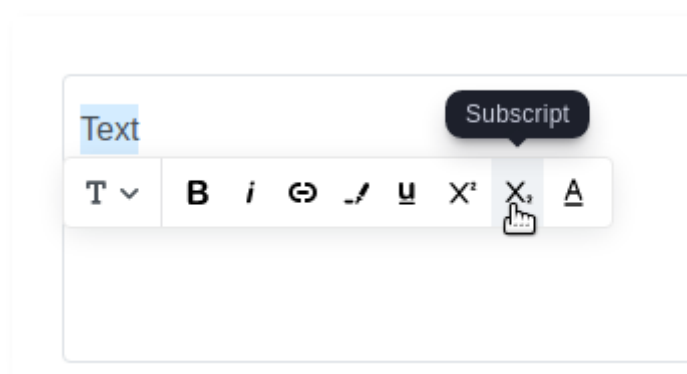

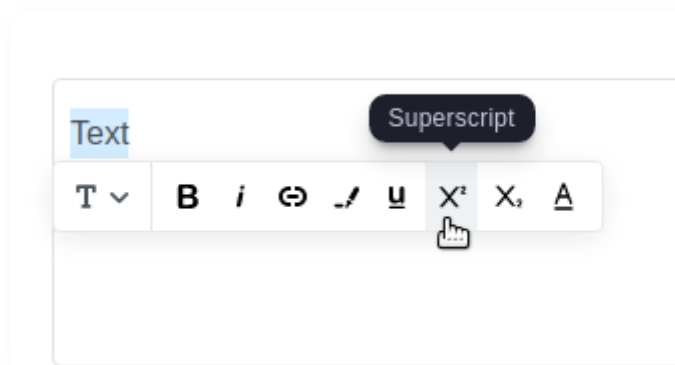

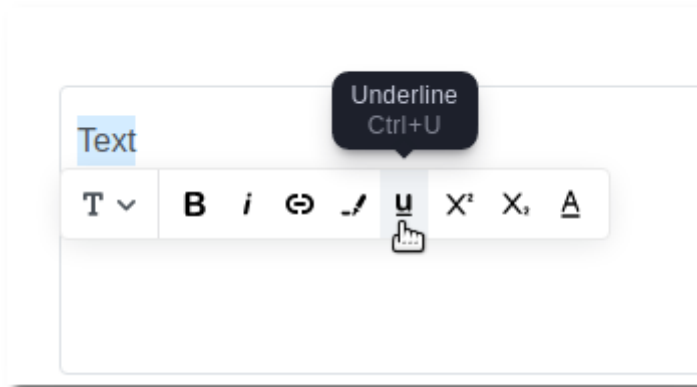

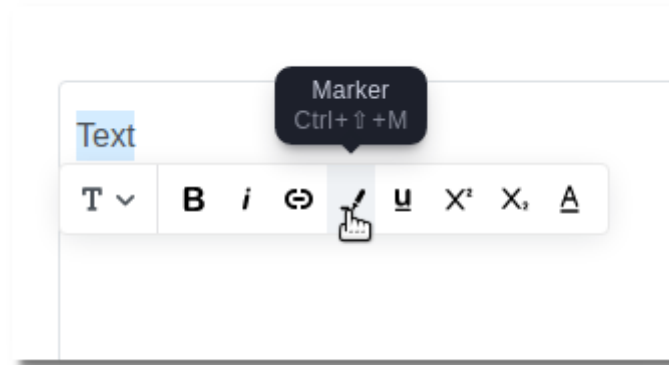

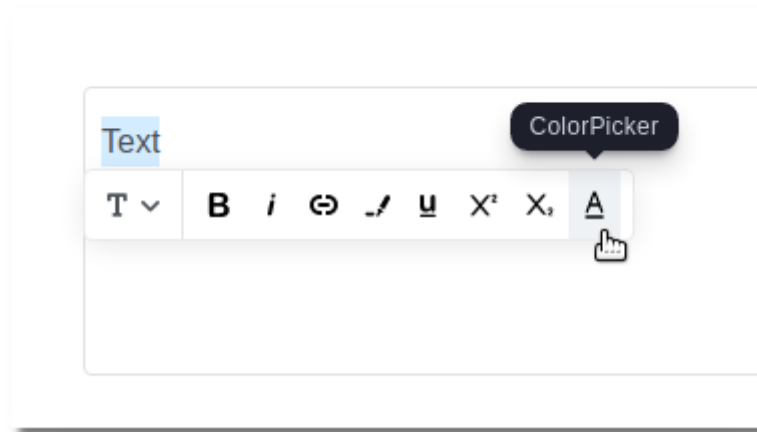

The screenshot displays the 'Free text' editor interface. At the top, it shows the title 'Free text' and the patient overview: 'Patient overview - Important notes', 'Joe Bailey', 'Father name: Ralph', and 'Age: 65 years SSN: 818-60-9519 Code: 32'. Below this is a text input field containing the text: 'Frequent episodes of chest pain and discomfort. Coronary angiography with normal findings.' The text 'chest pain' is highlighted in blue, and 'angiography' is underlined in red. A rich text toolbar is visible below the text, with icons for text color, bold, italic, link, unlink, strikethrough, list, and text background color. At the bottom of the editor, there are three buttons: 'Save' (blue), 'Clear' (red), and 'Exit' (blue). A 'Need help?' link is located in the bottom right corner.

Tools

By selecting a piece of text, you have the following tools available:

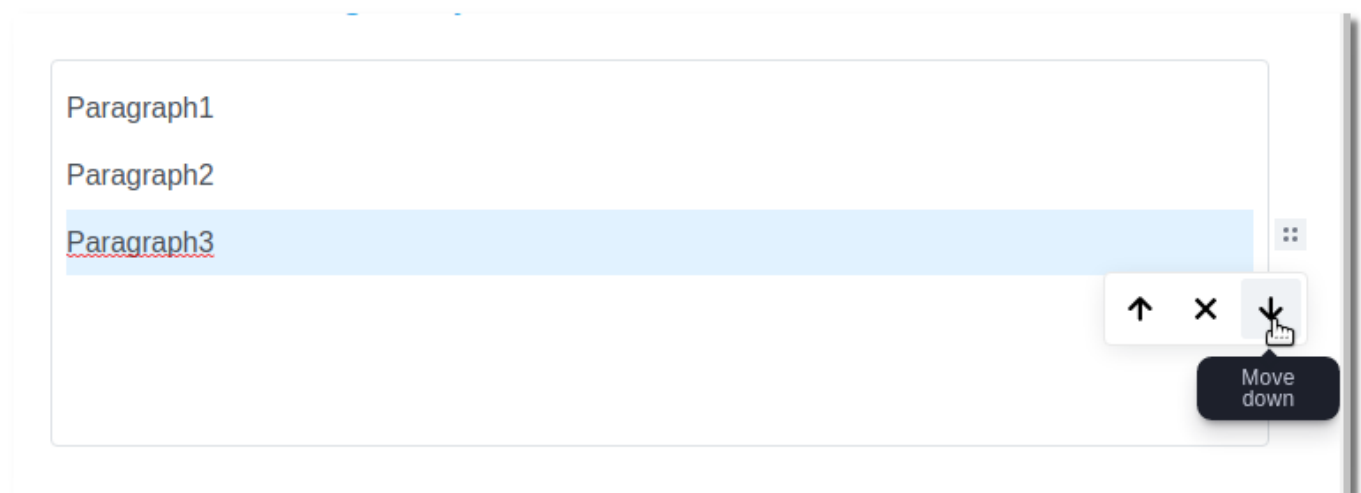

Moving elements

You can easily move up or down a paragraph (or any other element) or delete it.

Tables

Please read [Free Text Editor - Tables](#)

Example:

 **Important notes**

The patient comes in for a routine checkup for coronary artery disease.

Heading1	Heading2	Heading3
text A1 with formatting	text B1	text C1
text A2	text B2	text C2
text A3	text B3	text C3
