

Patient history

You can enter structured information, such as:

- [Diseases](#)
- [Allergies](#)

⚠ This functionality will soon be expanded with the additional possibility of registering **medication** and **surgeries**. See [details here](#).

It is always possible to enter **Free Text** in case there is no time to enter structured information.

It is also possible to **upload files** related to the Patient's Personal History. The files can be images or pdf documents.
