

History notes templates

Create your own Patient History notes templates. Save time and customize the patient information according to your own criteria. Patient History fields supported:

1. Patient overview
2. Patient history
3. Gynecological history
4. Family history
5. Social history
6. Case
7. Encounter

If you use some template documents in Word or another text editor, you can transfer them to MediSign by "Copy and Paste".
